

Facial Aesthetics - we are all individual

Each and everyone of us has different features we are proud of and features we are conscious of, we have different skin conditions and different facial movements.

As such, we offer facial aesthetics that are tailored to each patient to ensure you to feel comfortable in your skin.

About

Since qualifying from Bristol University in 2009 in Dentistry, Julia has completed extensive training in non surgical medical aesthetic treatments which help you become the best version of yourself. She is always improving her skills and knowledge to be able to offer you the most up to date treatments.

Julia offers wrinkle relaxing injections, fillers and polynucleotide skin treatments.
